This home is one of the Octagons early developments within Sunningdale and it resulted in a stand-out family home flooded with natural light and boasts exceptional living, substantial outdoor space and generous off-street parking with a double car garage.

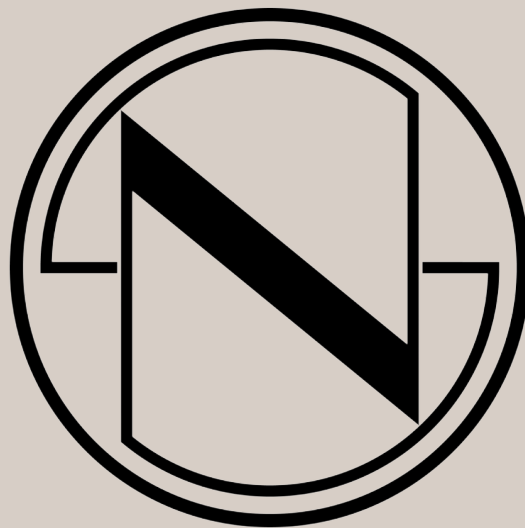

The house itself has 5 principal bedrooms and 5 bathrooms, including a superb pinnacle room accommodated by a his and hers en-suite. Situated on a private road this corner plot benefits from ultimate privacy. Providing 5,159 square feet, the house itself has a stunning living space on the lower floor, with French doors opening to the rear garden. This later leads to the formal dining room, kitchen/breakfast room, home office, second living room, laundry room, cinema/music studio and plenty of storage.

Split over 3 floors, you will find the house is very well partitioned, with family living on the ground floor and the bedrooms being on the first floor. As you reach the top floor of the home you are welcomed with a private room, bathroom and music studio, which could be transformed into a multi-media space.

In addition, one of the main features of the house is the fantastic outdoor space provided. Perfectly suited for summer hosting. This is benefitted by historic trees which enclose the garden space, proving further privacy.
