BASK

A Resort Redefined

BASK is a sustainable sanctuary, designed with architectural finesse and nestled on Indonesia's top-rated beach, as voted by Trip Advisor. Our resort boasts 83 luxurious villas, a stunning beach club, restaurants, cocktail lounge, beachfront infinity pool, wellness retreat, and gym, making it the ultimate destination in the region.

Indulge in the best of dining, drinking, and leisure activities, and simply bask in our unspoiled playground, offering world-class diving, water sports, surfing, and international golf. The crystal-clear waters are home to an array of exotic species and rare turtles, including the BASK Nest, our environmental and artistic underwater project by acclaimed artist Jason deCaires Taylor, a testament to our artistic vision and philosophy.

The BASK Vision

The BASK journey began with a vision of setting new standards in world-class design while remaining ecologically sensitive and sustainable.

Not confined to Gili Meno, BASK, as a brand, aims to hold to these values through great locations, modernist creativity, quality F&B, stunning service, audio and visual expertise, extraordinary experiences, interactive technology and art & culture via exceptional service and sustainable practices.

BASK aims to deliver a quality and authentic experience through accountability, team work, honesty and passion.

The Man Behind the Vision - BASK CEO, Greg Meyer

As someone with a career that spans three decades of project development and a successful track record as one of Australia's biggest tech financiers, Greg Meyer has a lot to live up to. Yet his energy and enthusiasm for BASK is infectious.

"BASK is the crystallisation of the two great passions in my life.

"I've always prided myself on being both a businessperson with an eye for financial detail and a creative, able to see and shape the big picture."

Art & Design

BASK's journey began with the raw ingredient of Gili Meno's natural beauty. It was essential that the development embraced the island's charm and offered understated elegance. BASK enlisted the expertise of architect Gary Fell and designer George Gorrow to bring the vision to life.

Together, they created a development that seamlessly blends mid-century architecture with a tropical aesthetic. The 83 sleek and private villas boast floor-to-ceiling doors that allow guests to become one with the turquoise sea and glistening beach. Sustainability is at the forefront of design, featuring eco-friendly materials and strong credentials.

When will you experience the perfect union of style and nature at BASK.

Indulge - F&B

Indulge, you deserve it...

Our innovative fusion menu combines island vibes with modern sophistication. Fresh, seasonal ingredients inspire our blend of Western and Asian flavors, creating a refined yet laid-back dining experience.

The Bask kitchen draws on the natural elements of open fire, steam, smoke and heat to enhance the quality of our sustainably sourced ingredients. We then apply time, patience and artisan skills to deliver our guests a dining experience worthy of the idyllic natural surroundings we find ourselves in. A stunning open kitchen invites guests to sit right at the kitchen bar and watch the vibrance of a professional kitchen in full swing. The wine room and Lyons Gallery offer a more subdued experience where the focus is on the immersion of fine art, wine and food.

Indulge in the finest cocktails made with premium spirits imported from around the world.

Perfect for private and exclusive functions, Rosalee is driven by a culture of music and arts that is unique to the BASK brand.

Gili Islands

The Gili Islands: an exclusive three-island constellation that glistens in between the popular beaches of Bali and the breathtaking landscapes of Lombok.

Gili Trawangan is the largest and busiest of the Gilis. A regional hub for maritime travel, it is a well-supplied commercial centre that transforms at sundown, making way for a thriving, tourism-driven nightlife.

Gili Air is the second largest of the Gilis. Closest to Lombok's Sire peninsula, the island is known for coastal water sports, seasonal surfing and its close-knit community.

Gili Meno is the smallest of the Gilis and, with only 500 estimated permanent inhabitants, is by far the least populated. Home to some of the Gilis' most secluded and inviting beaches, on Meno natural beauty trumps all.

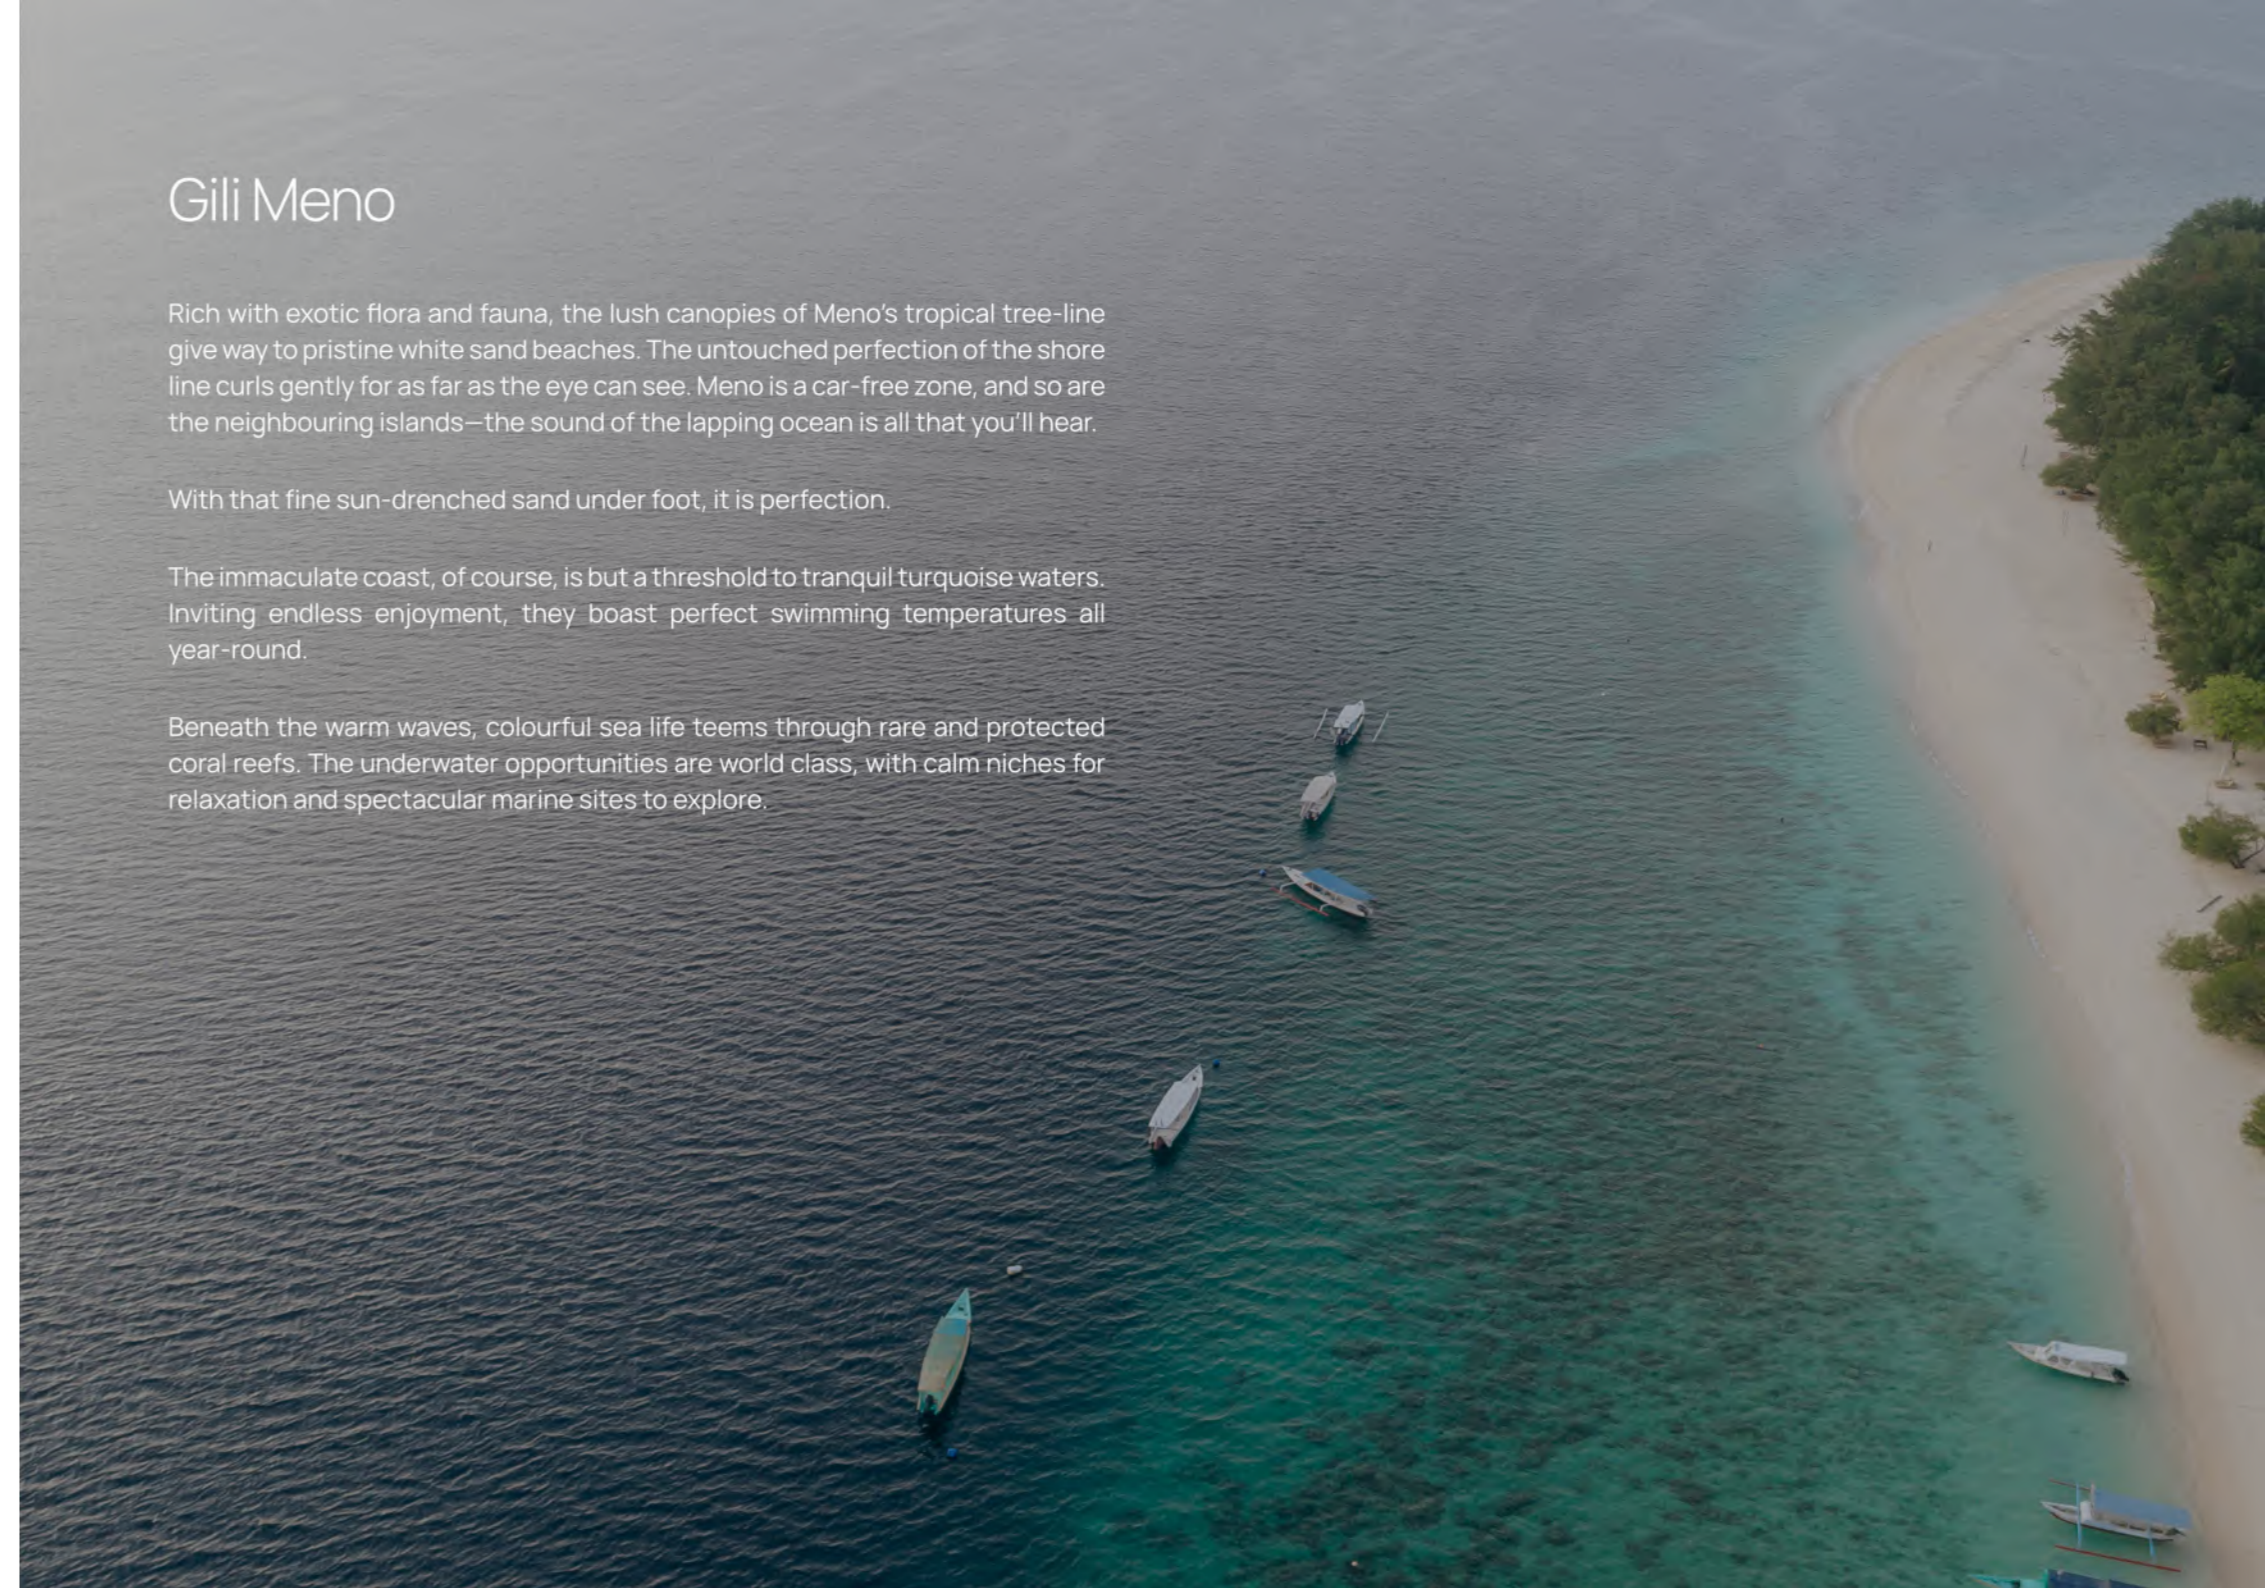

Gili Meno

Rich with exotic flora and fauna, the lush canopies of Meno's tropical tree-line give way to pristine white sand beaches. The untouched perfection of the shore line curls gently for as far as the eye can see. Meno is a car-free zone, and so are the neighbouring islands—the sound of the lapping ocean is all that you'll hear.

With that fine sun-drenched sand under foot, it is perfection.

The immaculate coast, of course, is but a threshold to tranquil turquoise waters. Inviting endless enjoyment, they boast perfect swimming temperatures all year-round.

Beneath the warm waves, colourful sea life teems through rare and protected coral reefs. The underwater opportunities are world class, with calm niches for relaxation and spectacular marine sites to explore.
